Overview

Take Advantage of Our Expertise

Clinical Research Advantage, Inc. (**CRA**) has provided research services to the pharmaceutical industry for more than 13 years. With **CRA**, pharmaceutical and biotech companies have one unique source for conducting clinical drug trials. **CRA** is comprised of community based Investigators plus an all RN staff of Clinical Research Coordinators. A key to our success has been our location within existing clinical practices. Our primary source of research subjects are the patients seen in our clinic settings. Our secondary sources are community based advertising and research data bank. **CRA**'s expertise and local clinical sites provide a sponsor with consistent subject enrollment, and valuable patients with complete and accurate data.

We Offer a Variety of Valuable Services

CRA can save you precious time by facilitating the research process at our study sites. Our experienced research staff provides the following services:

- Negotiating budgets rapidly
- Preparing Institutional Review Board submissions expeditiously
- Identifying specific patient populations through our active clinic settings and research data bank

Facility Description

Clinical Research Advantage's facilities and equipment are state of the art for conducting clinical trials with the highest quality. Each of our seven research facilities are approximately 10,000 sq. ft. with 10-30 technical and medical professionals.
